SHIENALYN DELEN GAWIRAN

Quezon City, Philippines | +63 967 558 2210 | gawiranshiena@gmail.com

PROFESSIONAL SUMMARY

Entry-level IT professional who combines hands-on troubleshooting experience with software development skills in Java, Spring Boot, C#, PostgreSQL, and JavaScript. Experienced in supporting users, resolving hardware and software issues, and building tested, database-driven applications. Reliable, organized, and eager to contribute from day one.

SKILLS

- **IT Support:** End-User Support, PC Troubleshooting, Printer Troubleshooting, Microsoft Office Support
- **ERP Systems:** SAP S/4HANA
- **Backend:** Java, Spring Boot, REST APIs, C#
- **Database:** PostgreSQL, MySQL, Microsoft SQL Server
- **Frontend:** HTML5, CSS3, JavaScript

WORK EXPERIENCE

Data Entry Assistant (Part Time)
Private Legal Services Provider (Coordinated with Quezon City Hall) | 2025 - Present
- Encoded applicant information for marriage license applications with accuracy.
- Maintained organized records and data integrity across application documents and supporting files.

Information Technology Intern
Ibaan Municipal Police Station (MPS), Ibaan, Batangas | January 2026 - April 2026
- Supported daily police clearance processing by troubleshooting workstation, local network printer, and Microsoft Office issues.
- Diagnosed common hardware and software problems and applied basic troubleshooting steps to help restore normal operations.
- Built an admin page using HTML, CSS, and JavaScript to support internal workflow management.

PROJECTS

Employee Bid Assignment API
Backend Skills Assessment Project | October 2026
- Built a Spring Boot REST API that assigns employees to open bids by certification status.
- Designed a PostgreSQL schema with keys, CHECK constraints, and NUMERIC bid amounts.
- Returned clear 404 and 409 error responses; tested all cases with Postman and pgAdmin.

SJASQ PE Uniform Receipt System
Freelance Web Developer - Client Project | July 2026
- Built a receipt management website using HTML, CSS, and JavaScript based on client requirements.
- Added receipt generation, PDF export, printing, and history features to support accurate transaction documentation.
- Troubleshot issues and refined the website to improve functionality, accuracy, and user experience.

STI Library Management System
Capstone Project
- Built a desktop-based library management system using C# and SQL Server.
- Integrated barcode scanning for borrowing, returns, and inventory management.
- Tested and documented the system to support functionality and recordkeeping.

Portfolio Website
- Designed a personal portfolio website to showcase development projects and skills.

EDUCATION
